SUMMARY

I am a budding software developer and also an ambitious, determined, flexible, and results-driven individual with great team spirit. My career objective is to be a worthy asset to my employers thereby adding value to them and helping in actualizing their goals and objectives. I'm always ready to learn and refine my skills to achieve this goal and also grow as a person. Hence, I aim to work as hard as possible and keep at it till I get the job done.

Ultimately, the end goal is to achieve success wherever I find myself.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, C#, Dart

Databases: MSSQL, PostgreSQL

Version Control: GitHub, Bitbucket

Cloud: AWS and Kubernetes

Frameworks: Flask, Django, Flutter

Web development: HTML, CSS, JavaScript

Project Management: Trello, Notion

Soft Skills: Time management, Creative thinking, Adaptability, Collaboration, Problem-solving, Fast and versatile learner

Others: Autodesk Fusion 360, Arduino UNO

CERTIFICATIONS AND TRAINING

Software Engineering – MidroHub (Freelance team)

Sept. 2021 – Present

- Learning NodeJS for web programming.
- Learning C# for ASP.net web programming.
- Learnt SQL and Database programming.
- Learnt Data Management.

AWS Machine Learning Foundations – Udacity

Jul. 2022 – September.2022

- Learnt Supervised, Unsupervised and Reinforcement Learning.
- Learnt Reinforcement Learning with AWS DeepRacer.
- Learnt Generative AI with AWS DeepComposer.
- Learnt Common Software Engineering Practices.
- Learnt Object-Oriented Programming in Python.

Full Stack Development using Flask (Python) – ALX - Udacity

May. 2022 – July.2022

- Learnt Server Deployment and Containerization
- Learnt SQL and Data Modelling for the Web.
- Learnt API Development and Documentation.
- Learnt Identity Access Management.

Introduction to Python Programming – Udacity

May. 2022

Introduction to Flutter Development using Dart – The App Brewery

Sept. 2020

EDUCATION

B.Sc. Systems Engineering – University of Lagos, Akoka, Nigeria

2018 – Present
